

AVA Register for Government Project Project Description

Return From Housing Department

Return For 3rd Quarter of 2016

<p>1. Project Name (in English & Chinese)</p>	<p>Proposed Public Housing Developments at Sites 3 and 5 at Lin Cheung Road Site 連翔路地盤 3 號及 5 號地盤 擬議公營房屋發展計劃</p>																								
<p>2. Project Reference</p>	<p>AVR/G/106</p>																								
<p>3. Outline of Project Details <i>(attach location plan)</i></p> <p><i>Please include key development parameters e.g. site area, total GFA, building height, lot frontage for waterfront sites etc. relevant to the project and the relevant criteria for AVA set out in para. 4.</i></p>	<p>The project is to carry out Air Ventilation Assessment for the Public Housing Developments at Sites 3 and 5 of Lin Cheung Road Site to assess air ventilation performance of the building design and its impacts to the surrounding pedestrian accessible locations.</p> <table border="1" style="margin: 10px auto; border-collapse: collapse; text-align: center;"> <thead> <tr> <th style="width: 50%;"></th> <th style="width: 25%;">Site 3</th> <th style="width: 25%;">Site 5</th> </tr> </thead> <tbody> <tr> <td>Site Area (ha.)</td> <td colspan="2">About 3.7</td> </tr> <tr> <td>Total GFA (m²)</td> <td colspan="2">Not more than 221,000</td> </tr> <tr> <td rowspan="7">Building Height (mPD) (Max.)</td> <td>Blk 1: 103</td> <td>Blk 3: 123</td> </tr> <tr> <td>Blk 2: 125</td> <td>Blk 4: 120</td> </tr> <tr> <td></td> <td>Blk 5: 117</td> </tr> <tr> <td></td> <td>Blk 6: 120</td> </tr> <tr> <td></td> <td>Blk 7: 123</td> </tr> <tr> <td></td> <td></td> </tr> <tr> <td></td> <td></td> </tr> </tbody> </table>		Site 3	Site 5	Site Area (ha.)	About 3.7		Total GFA (m ²)	Not more than 221,000		Building Height (mPD) (Max.)	Blk 1: 103	Blk 3: 123	Blk 2: 125	Blk 4: 120		Blk 5: 117		Blk 6: 120		Blk 7: 123				
	Site 3	Site 5																							
Site Area (ha.)	About 3.7																								
Total GFA (m ²)	Not more than 221,000																								
Building Height (mPD) (Max.)	Blk 1: 103	Blk 3: 123																							
	Blk 2: 125	Blk 4: 120																							
		Blk 5: 117																							
		Blk 6: 120																							
		Blk 7: 123																							

4. **Select the following category(ries) which would be applicable to the major government project :**

(Please tick ALL relevant categories)

- Planning studies for new development areas.
- Comprehensive land use restructuring schemes, including schemes that involve agglomeration of sites together with closure and building over of existing streets.
- Area-wide plot ratio and height control reviews.
- Developments on sites over 2 hectares and with an overall plot ratio of 5 or above.
- Development proposals with total Gross Floor Area exceeding 100,000 square metres.
- Developments with podium coverage extending over one hectare.
- Developments above public transport terminus.
- Buildings with height exceeding 15 metres within a public open space or breezeway designated on layout plans / outline development plans / outline zoning plans or proposed by planning studies.
- Developments on waterfront sites with lot frontage exceeding 100 metres in length.
- Extensive elevated structures of at least 3.5 metres wide, which abut or partially cover a pedestrian corridor along the entire length of a street block that has / allows development at plot ratio 5 or above on both sides; or which covers 30% of a public open space.
- Others, please specify

5. Relevant factors which have been taken into account in assessing the need for AVA			
<i>Factors</i>	<i>Y</i>	<i>N</i>	<i>Brief remarks</i>
Are there existing / planned outdoor sensitive receivers located in the vicinity of the project site falling within the assessment area?	<input checked="" type="checkbox"/>	<input type="checkbox"/>	There are several main roads, existing school site and planned residential developments in the vicinity.
Are there known or reasonable assumptions of the development parameters available at the time to conduct the AVA?	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Parameters for the Baseline Scheme is based on the previous approved scheme in AVA report dated Nov 2013. The Proposed Scheme is further developed based on the previous approved scheme with slightly increased building height.
Are alternative designs or alternative locations feasible if the AVA to be conducted reveals major problem areas?	<input type="checkbox"/>	<input checked="" type="checkbox"/>	In general, the SVR and LVR is similar in both Baseline and Proposed Schemes. The results did not reveal major problem areas.
Are there other overriding factors that would prevail over air ventilation considerations in the determination of the project design?	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Air ventilation is an important consideration in determination of the project design also having regards to other site constraints like building height, visual impact, traffic noise and neighbouring developments and to maximize public housing production.
Will the desirable project design for better air ventilation compromise other important objectives for the benefits of the public?	<input type="checkbox"/>	<input checked="" type="checkbox"/>	

Has the public raised concern on air ventilation in the neighbourhood area of the project?	<input checked="" type="checkbox"/>	<input type="checkbox"/>	The study area for the AVA report is extended from H to 2H to address public concerns.
Is the project already in advanced stage to incorporate AVA?	<input checked="" type="checkbox"/>	<input type="checkbox"/>	
Any other factors not listed above? (please specify)	<input type="checkbox"/>	<input checked="" type="checkbox"/>	
6. Is AVA required?			
<input checked="" type="checkbox"/> AVA is required for the project	<i>Go to Section 7</i>		
<input type="checkbox"/> AVA should be conducted later	<i>Go to Section 8</i>		
<input type="checkbox"/> AVA to be waived	<i>Go to Section 9</i>		
7. AVA is required for the project <input type="checkbox"/>			
<i>(The AVA report, 3 hard copies and an electronic copy in Acrobat format, is to be submitted for record after completion)</i>			
(a) AVA Consultants (if any)	Ove Arup and Partners Hong Kong Limited		
(b) Time (start / finish)	Sep 2014 to May 2015		
(c) Assessment tool used (CFD or/and wind tunnel)	CFD		
(d) Any design changes made to the project resulting from the AVA?	Major design changes including: <ul style="list-style-type: none"> • Revise G/F empty bay location 		
(e) Any major problems encountered in the AVA process?	No		

(f) Any suggested improvement to the AVA process?	No
8. AVA should be conducted later	<input checked="" type="checkbox"/> <i>Not applicable</i>
(a) What is the current stage of the project?	
(b) When should AVA be conducted?	
(c) Which Policy Bureau agrees to conduct AVA later?	DB THB Others _____
9. AVA to be waived	<input checked="" type="checkbox"/> <i>Not applicable</i>
(a) Give justifications for waiving the requirement	
(b) Have qualitative design guidelines / measures been adopted and design changes been made to improve air ventilation of the project?	
(c) Which Policy Bureau agrees to waive AVA?	DB THB Others _____
10. Contact	
(a) Name	██████████
(b) Designation	██████
(c) Tel.	██████████
(d) E-mail	██
