AVA Register for Government Project Project Description

Return From Housing Department

Return For 1st Quarter of 2020

1.	Project Name	Public Housing Development at North West Kowloon Reclamation Site 1 (East) 西北九龍填海區第 1 號地盤(東)公共房屋發展計劃				
	(in English & Chinese)					
2.	Project Reference	AVR/G/136				
2	Outline of Duciest	Cita Area (ha)	1.50 (about)			
3.	Outline of Project	Site Area (ha.)	1.52 (about)			
	Details	Maximum Domestic	Not exceeding 114,000			
	(attach location plan)	GFA (m ²)				
		Total GFA (m ²)	Not exceeding 136,000			
	Please include key development	Building Height (mPD)	126 (about)			
	parameters e.g. site					
	area, total GFA,					
	building height, lot					
	frontage for waterfront					
	sites etc. relevant to the					
	project and the relevant					
	criteria for AVA set out					
	in para. 4.					

(Please tick ALL relevant categories)		
	Planning studies for new development areas.	
	Comprehensive land use restructuring schemes, including schemes that involve agglomeration of sites together with	
	closure and building over of existing streets.	
\times	Area-wide plot ratio and height control reviews.	
	Developments on sites over 2 hectares and with an overall plor ratio of 5 or above.	
	Development proposals with total Gross Floor Area exceeding 100,000 square metres.	
	Developments with podium coverage extending over one	
	hectare.	
	Developments above public transport terminus.	
	Buildings with height exceeding 15 metres within a public open space or breezeway designated on layout plans / outline development plans / outline zoning plans or proposed by planning studies.	
	Developments on waterfront sites with lot frontage exceeding 100 metres in length.	
	Extensive elevated structures of at least 3.5 metres wide, which abut or partially cover a pedestrian corridor along the entire length of a street block that has / allows development at plot ratio 5 or above on both sides; or which covers 30% of a public open space.	
X	Others, please specify	
	For support S16A Planning Application for Class B Amendments to the Approved	

Relevant factors which have been taken into account in assessing the 5. need for AVA NY **Factors Brief remarks** Are there existing / planned There are other residential outdoor sensitive receivers buildings in nearby areas located in the vicinity of the project site falling within the assessment area? Are there known or reasonable assumptions of the development parameters available at the time to conduct the AVA? X Are alternative designs or No major problem areas are alternative locations feasible if revealed. the AVA to be conducted reveals major problem areas? \boxtimes Are there other overriding Site constraints including the fixed factors that would prevail over noise from Vegetable Market, air ventilation considerations in traffic noise from West Kowloon Corridor need to be mitigated, the determination of the project design? these factors affect building form and disposition. Besides, BHR of 126mPD for total P.R. 9 affects the building bulk and air corridor achievable. X Will the desirable project design for better air ventilation compromise other important objectives for the benefits of the public? \boxtimes Has the public raised concern During the DC meeting on on air ventilation in the 02/02/2016, DC members raised concerns on air ventilation and HD neighbourhood area of the project? committed to carry out AVA studies.

	Is the project already in	\boxtimes		Two air paths along NW-SE and		
	advanced stage to incorporate			one air path along NE-SW have		
	AVA?			been incorporated.		
	Any other factors not listed		X			
	above? (please specify)					
6.	Is AVA required?					
	AVA is required for the		Go to Section 7			
	project					
	AVA should be		Go to Section 8			
	conducted later		o io	Section o		
	AVA to be waived		Go to Section 9			
7.	AVA is required for the project					
	(The AVA report, 3 hard copies and an electronic copy in Acrobat format,					
	is be submitted for record after completion)					
	(a) AVA Consultants (if any)		(Ove Arup & Partners Hong Kong Ltd.		
	(b) Time (start / finish)		2	2017/01 — 2018/08		
	(c) Assessment tool used (CFD		(CFD		
	or/and wind tunnel)					
	(d) Any design changes made to the project resulting from the		F	Proposed Design Option was verified		
			t	o be the more desirable solution and		
	AVA?		f	inally adopted.		
	(e) Any major problems		1	None.		
	encountered in the AVA					
	process?					
	(f) Any suggested improvement		N	None.		
(f) Any suggested improvement to the AVA process?			'	10.10.		
	to the 1171 process:					

8.	AVA should be conducted later	not applicable
	(a) What is the current stage of the	
	project?	
	(b) When should AVA be	
	conducted?	
	(c) Which Policy Bureau agrees to	DB
	conduct AVA later?	THB
		Others
0		
9.	AVA to be waived	not applicable
	(a) Give justifications for	
	waiving the requirement	
	(b) Have qualitative design	
	guidelines / measures been	
	adopted and design changes	
	been made to improve air	
	_	
	ventilation of the project?	
	()	
	(c) Which Policy Bureau agrees	DB
	to waive AVA?	THB
