## AVA Register for Government Project Project Description

## **Return From** (Department/bureau/authority) Housing Department

## Return For 2nd Quarter of 2024

1.	Project Name	Public Housing Development at Yip Wong Road,					
	(in English & Chinese)	Tuen Mun					
		屯門業旺路公營房屋發展計劃					
2.	<b>Project Reference</b>	AVR/G/173					
3.	<b>Outline of Project</b>						
	Details	Gross Site Area	Approx. 24,950 m <sup>2</sup>				
	(attach location plan)	Total Actual GFA	About 157,780 m <sup>2</sup>				
		Building Height (mPD) (Max.)	140 mPD and 150 mPD				
	Please include key						
	development						
	parameters e.g. site						
	area, total GFA,						
	building height, lot						
	frontage for waterfront						
	sites etc. relevant to the						
	project and the relevant						
	criteria for AVA set out						
	in para. 4.						

4.	Select the following category(ries) which would be applicable to the				
	major government project :				
	(Please tick ALL relevant categories)				
		Planning studies for new development areas. Comprehensive land use restructuring schemes, including schemes that involve agglomeration of sites together with closure and building over of existing streets. Area-wide plot ratio and height control reviews. Developments on sites over 2 hectares and with an overall plot ratio of 5 or above. Development proposals with total Gross Floor Area exceeding 100,000 square metres.			
		Developments with podium coverage extending over one			
		hectare. Developments above public transport terminus. Buildings with height exceeding 15 metres within a public open space or breezeway designated on layout plans / outline development plans / outline zoning plans or proposed by planning studies. Developments on waterfront sites with lot frontage exceeding 100 metres in length. Extensive elevated structures of at least 3.5 metres wide, which abut or partially cover a pedestrian corridor along the entire length of a street block that has / allows development at plot ratio 5 or above on both sides; or which covers 30% of a public open space. Others, please specify <u>To carry the AVA Initial Study for the Public Housing Development. The AVA undertaken is to demonstrate that the air ventilation aspect of the project has</u>			
		been adequately addressed and assessed.			

Factors	Y	N	Brief remarks
Are there existing / plan outdoor sensitive receive located in the vicinity of project site falling within assessment area?	ers the		There are main roads, promenade open space, and residential developments in the vicinity
Are there known or reasonassumptions of the development parameters available at the time to conduct the AVA?			Development parameters based o approved Planning Brief and building layout were available for preparation of AVA – IS.
Are alternative designs of alternative locations feas the AVA to be conducted reveals major problem a	sible if		No major problems areas are found from AVA. Potential impact was identified in AVA-EE conducted at early stage. Mitigation measures were proposed and incorporated in the proposed design.
Are there other overridin factors that would preva air ventilation considerat the determination of the design?	il over tions in		Air ventilation is an important consideration in determination of the project design also having regard to other site constraints like building height, visual impact, traffic noise and neighbouring developments and to maximize public housing production, car parking space and welfare facility.
Will the desirable project design for better air vent compromise other import objectives for the benefit the public?	ilation tant		<b>*</b>

	Has the public raised concern on air ventilation in the neighbourhood area of the project?					
	Is the project already in advanced stage to incorporate AVA?	Detailed design stage has incorporated good design features in AVA.				
	Any other factors not listed above? (please specify)					
6.	Is AVA required?					
	AVA is required for the project	Go to Section 7				
	AVA should be conducted later	Go to Section 8				
	AVA to be waived	Go to Section 9				
7.		The AVA report, 3 hard copies and an electronic copy in Acrobat format, be submitted for record after completion)				
	(b) Time (start / finish)	Jan 2019 / Jun 2022				
	(c) Assessment tool used (CFD or/and wind tunnel)	CFD				
	(d) Any design changes made to the project resulting from the AVA?	Disposition of domestic blocks Increased building separation Increased air permeable space in podium				
	(e) Any major problems encountered in the AVA process?	Nil				

	(f) Any suggested improvement	Building separation
	to the AVA process?	Building setback
		Air permeable space in podium
		Avoidance of long continuous facades
		Minimization of podium bulk
8.	AVA should be conducted later	not applicable
	(a) What is the current stage of the	
	project?	
	(b) When should AVA be conducted?	
	(c) Which Policy Bureau agrees to	DB
	conduct AVA later?	THB
		Others
9.	AVA to be waived	not applicable
	(a) Give justifications for waiving the requirement	
	(b) Have qualitative design	
	guidelines / measures been	
	adopted and design changes	
	been made to improve air	
	ventilation of the project?	
	(c) Which Policy Bureau agrees	DB
	to waive AVA?	THB
		Others
10.	Contact	
	(a) Name	
	(b) Designation	
	(c) Tel.	
	(d) E-mail
