

**AVA Register for Government Project
Project Description**

Return From (Department/bureau/authority) Housing Department

Return For 3rd Quarter of 2024

<p>1. Project Name (in English & Chinese)</p>	<p>Public Housing Developments at Kai Tak Sites 2B5 and 2B6 啟德發展區 2B5 及 2B6 地盤公營房屋發展計劃</p>																
<p>2. Project Reference</p>	<p>AVR/G/174</p>																
<p>3. Outline of Project Details <i>(attach location plan)</i></p> <p><i>Please include key development parameters e.g. site area, total GFA, building height, lot frontage for waterfront sites etc. relevant to the project and the relevant criteria for AVA set out in para. 4.</i></p>	<p>Kai Tak Site 2B5:</p> <table border="1" data-bbox="673 884 1399 1079"> <tr> <td>Site Area:</td> <td>Approx. 11,386 m²</td> </tr> <tr> <td>Total Domestic GFA:</td> <td>Approx. 72,783 m²</td> </tr> <tr> <td>Total GFA:</td> <td>Approx. 75,146 m²</td> </tr> <tr> <td>Maximum Building Height:</td> <td>100 mPD</td> </tr> </table> <p>Kai Tak Site 2B6:</p> <table border="1" data-bbox="673 1178 1399 1373"> <tr> <td>Site Area:</td> <td>Approx. 14,353 m²</td> </tr> <tr> <td>Total Domestic GFA:</td> <td>Approx. 92,899 m²</td> </tr> <tr> <td>Total GFA:</td> <td>Approx. 94,730 m²</td> </tr> <tr> <td>Maximum Building Height:</td> <td>100 mPD</td> </tr> </table>	Site Area:	Approx. 11,386 m ²	Total Domestic GFA:	Approx. 72,783 m ²	Total GFA:	Approx. 75,146 m ²	Maximum Building Height:	100 mPD	Site Area:	Approx. 14,353 m ²	Total Domestic GFA:	Approx. 92,899 m ²	Total GFA:	Approx. 94,730 m ²	Maximum Building Height:	100 mPD
Site Area:	Approx. 11,386 m ²																
Total Domestic GFA:	Approx. 72,783 m ²																
Total GFA:	Approx. 75,146 m ²																
Maximum Building Height:	100 mPD																
Site Area:	Approx. 14,353 m ²																
Total Domestic GFA:	Approx. 92,899 m ²																
Total GFA:	Approx. 94,730 m ²																
Maximum Building Height:	100 mPD																

4. Select the following category(ries) which would be applicable to the major government project :

(Please tick ALL relevant categories)

- Planning studies for new development areas.
- Comprehensive land use restructuring schemes, including schemes that involve agglomeration of sites together with closure and building over of existing streets.
- Area-wide plot ratio and height control reviews.
- Developments on sites over 2 hectares and with an overall plot ratio of 5 or above.
- Development proposals with total Gross Floor Area exceeding 100,000 square metres.
- Developments with podium coverage extending over one hectare.
- Developments above public transport terminus.
- Buildings with height exceeding 15 metres within a public open space or breezeway designated on layout plans / outline development plans / outline zoning plans or proposed by planning studies.
- Developments on waterfront sites with lot frontage exceeding 100 metres in length.
- Extensive elevated structures of at least 3.5 metres wide, which abut or partially cover a pedestrian corridor along the entire length of a street block that has / allows development at plot ratio 5 or above on both sides; or which covers 30% of a public open space.
- Others, please specify
To carry out the AVA for the Public Housing Developments. The AVA undertaken is to demonstrate that the air ventilation aspect of the project has been adequately addressed and assessed.

5. Relevant factors which have been taken into account in assessing the need for AVA			
<i>Factors</i>	<i>Y</i>	<i>N</i>	<i>Brief remarks</i>
Are there existing / planned outdoor sensitive receivers located in the vicinity of the project site falling within the assessment area?	<input checked="" type="checkbox"/>	<input type="checkbox"/>	There are main roads, streets, park, open space and residential developments in the vicinity.
Are there known or reasonable assumptions of the development parameters available at the time to conduct the AVA?	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Development parameters based on approved planning brief and building layout was available for preparation of AVA.
Are alternative designs or alternative locations feasible if the AVA to be conducted reveals major problem areas?	<input type="checkbox"/>	<input checked="" type="checkbox"/>	No major problems areas are found from AVA.
Are there other overriding factors that would prevail over air ventilation considerations in the determination of the project design?	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Air ventilation is an important consideration in determination of project design, also having regard to other site constraints like building height, traffic noise and maximizing public housing production.
Will the desirable project design for better air ventilation compromise other important objectives for the benefits of the public?	<input type="checkbox"/>	<input checked="" type="checkbox"/>	
Has the public raised concern on air ventilation in the neighbourhood area of the project?	<input type="checkbox"/>	<input checked="" type="checkbox"/>	

Is the project already in advanced stage to incorporate AVA?	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Micro-climate studies were conducted during planning stage to optimize the layout of the development.
Any other factors not listed above? (please specify)	<input type="checkbox"/>	<input checked="" type="checkbox"/>	
6. Is AVA required?			Yes
AVA is required for the project	<i>Go to Section 7</i>		
AVA should be conducted later	<i>Go to Section 8</i>		
AVA to be waived	<i>Go to Section 9</i>		
7. AVA is required for the project <i>not applicable</i> (The AVA report, 3 hard copies and an electronic copy in Acrobat format, is to be submitted for record after completion)			
(a) AVA Consultants (if any)	Ramboll Hong Kong Limited		
(b) Time (start / finish)	October 2023 to May 2024		
(c) Assessment tool used (CFD or/and wind tunnel)	CFD		
(d) Any design changes made to the project resulting from the AVA?	No major problematic area encountered.		
(e) Any major problems encountered in the AVA process?	No major problem encountered in the AVA process.		
(f) Any suggested improvement to the AVA process?	Nil.		

8. AVA should be conducted later		<i>not applicable</i>
(a) What is the current stage of the project?		
(b) When should AVA be conducted?		
(c) Which Policy Bureau agrees to conduct AVA later?	DB THB Others _____	
9. AVA to be waived		<i>not applicable</i>
(a) Give justifications for waiving the requirement		
(b) Have qualitative design guidelines / measures been adopted and design changes been made to improve air ventilation of the project?		
(c) Which Policy Bureau agrees to waive AVA?	DB THB Others _____	
10. Contact		
(a) Name		████████████████████
(b) Designation		████████████████████
(c) Tel.		████████████████████
(d) E-mail		████████████████████
