AVA Register for Government Projects Project Description

Return For 3rd Quarter of 2010

2.	Project Name (in English & Chinese) Project Reference	Term Consultancy for AVA Services – Expert Evaluation on Air Ventilation Assessment for Tai Po Area 合約顧問服務 – 大埔區空氣流通專家評估 AVR/G/51
3.	Outline of Project Details (attach location plan)	AVA for OZP review to incorporate plot ratio/gross floor area and building height restrictions on the Tai Po OZP covering an area of about 2438 hectares.
	Please include key development parameters e.g. site area, total GFA, building height, lot frontage for waterfront sites etc. relevant to the project and the relevant criteria for AVA set out in para. 4.	

4.	Select the following category(ries) which would be applicable to the major government project:						
	(Please tick ALL relevant categories)						
	Other	Planning studies for new development areas. Comprehensive land use restructuring schemes, including schemes that involve agglomeration of sites together with closure and building over of existing streets. Area-wide plot ratio and height control reviews. Developments on sites over 2 hectares and with an overall plot ratio of 5 or above. Development proposals with total Gross Floor Area exceeding 100,000 square metres. Developments with podium coverage extending over one hectare. Developments above public transport terminus. Buildings with height exceeding 15 metres within a public open space or breezeway designated on layout plans / outline development plans / outline zoning plans or proposed by planning studies. Developments on waterfront sites with lot frontage exceeding 100 metres in length. Extensive elevated structures of at least 3.5 metres wide, which abut or partially cover a pedestrian corridor along the entire length of a street block that has / allows development at plot ratio 5 or above on both sides; or which covers 30% of a public open space. Pers, please specify					

ó.	Relevant factors which have been taken into account in assessing the need for AVA					
	Factors	Y	N	Brief remarks		
	Are there existing / planned outdoor sensitive receivers located in the vicinity of the project site falling within the assessment area?			J		
	Are there known or reasonable assumptions of the development parameters available at the time to conduct the AVA?			Reasonable assumptions are made to help identify possible redevelopments in formulating the initial planned scenario for the assessment.		
	Are alternative designs or alternative locations feasible if the AVA to be conducted reveals major problem areas?			Building height restriction proposals will be amended and other development restrictions will be imposed as appropriate subject to the recommendations of AVA.		
	Are there other overriding factors that would prevail over air ventilation considerations in the determination of the project design?			Due regard should be given to development rights and site constraints.		
	Will the desirable project design for better air ventilation compromise other important objectives for the benefits of the public?					
	Has the public raised concern on air ventilation in the neighbourhood area of the project?					

	Is the project already in		\boxtimes	
	advanced stage to incorporate AVA?			
	AVA			
	Any other factors not listed		\boxtimes	
	above? (please specify)			
6.	Is AVA required?			
		G	o to	Section 7
	project			
	AVA should be	G	o to	Section 8
	conducted later			
	AVA to be waived	G	o to	Section 9
7.	AVA is required for the project			not applicable
				electronic copy in Acrobat format,
	is be submitted for record after co	mp		
	(a) AVA Consultants (if any)			Department of Architecture, The
			(Chinese University of Hong Kong
	(b) Time (start / finish)		(October 2009 / August 2010
				•
	(c) Assessment tool used (CFD)	E	expert Evaluation
	or/and wind tunnel)			
	(d) Any design changes made to			Recommended measures as shown
	the project resulting from the		C	on the Outline Zoning Plan or
	AVA?			Explanatory Statement to guide
				leposition/ designs of future
	(e) Any major problems			levelopments.
	encountered in the AVA		I	VII.
	process?			
	r			

	(f) Any suggested improvement	NIL
	to the AVA process?	
	_	
8.	AVA should be conducted later	igsep not applicable
	(a) What is the current stage of the	
	project?	
	(b) When should AVA be	
	conducted?	
	(c) Which Policy Bureau agrees to	DB
	conduct AVA later?	☐ THB
	conduct AVA later:	Others
9.	AVA to be waived	igselow not applicable
	(a) Give justifications for	
	waiving the requirement	
	(b) Have qualitative design	
	guidelines / measures been	
	adopted and design changes	
	been made to improve air	
	ventilation of the project?	
	(c) Which Policy Bureau agrees	□ DB
	to waive AVA?	ТНВ
