No. 35 - Fung Yuen Valley

Site

The site is the forested ravine behind the village of Fung Yuen. The area of the site is about 42.8 hectares.

Date of Designation

5 February 1980

Special Scientific Interest

The ravine is well forested. Some rare plants are known on the edge of the forest, e.g. Iligera platyandra.

The site is also an important breeding site for some rare butterflies.

Degree of Hazard

There is the risk of hillfire. Earth borrow activities and development are active in areas to the south of the site.

Recommended Protection Measures

The site is within the Tai Po Outline Zoning Plan and is classified as rural area. Development or earth borrowing activities should not be allowed to expand to affect the site.
